

December 16, 2025: Letter to COSA City Council

Good evening,

I am writing again to remind you that Donald Trump's team of spies and stalkers are maintaining a presence in the San Antonio community and are utilizing SAPD resources to intimidate innocent citizens as a means of threatening and suppressing their political speech.

Today, I was specifically engaged on three occasions by one 'undercover' spy and two uniformed police units that were positioned in ways that speak sign language in line with my religious research.

I am writing to alert your office that, not only is my innocent religious work being illegally monitored by the federal government, but they are also maintaining a constant 'acoustic agitation' presence outside of my home as a form of psychological warfare to constantly increase 'pressure' into our home that will force us into emotional over-extensions of our political and religious speech.

At the same time that the constant presence of Donald Trump's illegal spying operation is pushing acoustic vibrations into our home (at all hours of the day and night)(and in direct relationship and response to every bit of work that I am doing on my computer) his team is also utilizing San Antonio Police Department resources to position themselves suggestively into my vision and movements as I move about town.

The obvious effect of the combined operation is to constantly pressure an innocent person into some action which Donald Trump's team of criminals can use to illegally persecute me in another form of ongoing injustice.

I am specifically alerting your office that criminals are running the United States government and that those criminals are using other criminals outside of the government and uniformed police units to 'squeeze' me into uncomfortable positions whenever I am outside of my home and also alone.

This is a threatening operation that is not only attempting to entrap me in crime, but is also resembling an ongoing false imprisonment that is created by a combination of state actors and criminal gang members. Could anything be more alarming to see and believe at this time? This is pretty far down the spiral of descent for a country's law enforcement and it must be addressed immediately.

As I have already mentioned, this entire operation is an ongoing effort by Donald Trump's team to stop me from filing a federal lawsuit against them for illegally spying on me since 2022 - when I was first elected as a Precinct Committee Chair of the Republican Party of Bexar County.

Now today, three years later since this all began, I am still being contacted by members of his illegal spying team as they stalk my movements and attempt to engage with me in conversations and other sign language pressures. At this time, I am also reminding your office that they sent a gunman to threaten me on August 08, 2024 in my front yard - which I reported to the SAPD. That police office seemed more interested in investigating me than he did the man that had just threatened me with a gun in my front yard!

This is obviously an ongoing criminal operation and I am alerting your office that Donald Trump's administration appears to be a criminal takeover of the federal government that is positioning itself, practicing the methods of, rehearsing the movements of, and training personnel towards the unlawful false imprisonments of their political enemies.

This is a highly alarming and dangerous scenario that is developing and I am doing my best to alert everyone that I can to the ongoing threats that are being posed against our household by the 'leader' of the American 'government.'

I hope this message finds you well and that you can alert the appropriate members of your political party because law enforcement agencies (FBI, Secret Service, Texas Rangers, and SAPD)(all of which I have already contacted about this problem) appear to be conquered by criminals and are being used in ongoing entrapment / psychological warfare operations against the community.

As our city council representative, I understand that this is a bit beyond the general duties of your elected position. However, I am hoping that these emails will help your office to understand what exactly is occurring as we see more and more problems developing in and around San Antonio, Texas, and America.

Thank you for your attention to this important matter.

Kindest regards,

Chris Noel Carlin
